In addition to this, Colleges' performances par excellence in women sports, academics, university merit list, extension activities, international faculty awards & recognitions are also the USP of College and definitely add to Colleges' strength and distinctiveness.

- The female students' progression from UG to PG is reasonably good in the College.
- The College has a very strict Anti-Ragging committee and students' grievance cell.
- The College regularly conducts activities for the promotion of gender-equity and gender-sensitivity.
- The College practices leniency towards those female students who earn a livelihood while studying.

Institutional Weakness

- Some teachers in the College are not technology savvy and hence ICT enabled teaching is not done by every teacher of the College.
- Majority of the students of the College are from rural milieu and impoverished income group and therefore possess unrefined social, communication, verbal and written skills. However, the College see to it that the same set of students are transformed into refined and sophisticated social beings.
- Though the medium of instruction in the College is both in Hindi & English but the influence of vernacular medium of learning during schooling reigns heavily on most of the students.
- Most of the UG final year students of the College leave the College after the completion of UG programme for various avenues and this somewhat limits the progression of UG students of the College to PG programmes running in the College.

Institutional Opportunity

- The College has linkages and tie-ups with various philanthropic and charity organizations which provide financial help to female students from lower income group.

- The Teaching Staff and Alumni Association of the College generously contribute to financially support the female students from lower income group.

This posed a great challenge to the teaching staff which was already overloaded with academic assignments. However, the College overcame this challenge by recruiting Contractual Teachers.
- The prevalence of overall poor learning outcomes of the students passing out from current schooling systems poses a great challenge to the teaching staff of the College to induct, orient, teach and educate mostly average students. The Colleges' teaching staff has made few attempts to reach out and help school students to improve their level of competency and help school teachers to improve their level of proficiency.
- The prevalence of job crunch and overall job shrinkage in Indian markets due to advent of technology and gradual phasing out of manual workers is posing a challenge to students regarding career opportunities. The College is also equally concerned in this regard and therefore regularly arrange for trainings and workshops teaching relevant job skills and for also reorienting the students towards entrepreneurship and self-employment opportunities.

A centralized database is being developed so that the library services can be streamlined and a uniform digital system is maintained to enable easy accessibility to staff and students.

As of now, the databases of all the Teaching Faculty members, all the Students of UG final year, Stock entry of all the new arrivals in the Central Library are operational and being used under SOUL 2.0. The database for books issued and returned is also operational and maintained via SOUL 2.0. The Online Public Access Catalogue (OPAC) module of SOUL 2.0 is operational and being used by the Library Staff members to provide information on the status of any book catalogued in the Central Library.

6.1.1 The governance of the institution is reflective of and in tune with the vision and mission of the institution

Response:

The College practices a participatory mode of administration with all the stakeholders actively involved in its governance. The Principal is at the helm of affairs and accountable for the governance and management of the College. The Principal as the Institutional Head has been proficient, progressive and dynamic and handles the colossal task of administrating the College perfectly. The Heads of Departments, the Conveners of various Committees & Cells along with the Staff Representatives of higher decision-making bodies play an important role in determining various policies of the College and their implementation.

The *Vision* statement of College is that "We aspire to emerge as an institute of excellence with a difference wherein we develop intellectual, emotional, cultural, moral, ethical and entrepreneurial values in female students by imparting higher learning and value based education in line with global standards so that the whole society is benefited and uplifted." 6.1.2 The effective leadership is visible in various institutional practices such as decentralization and participative management

Response:

The Colleges' administration is much decentralized with participatory form of management. The Principal, being academic and administrative head of the College, supervises all the activities and ensures implementation of academic discipline. Principals' long term vision for both academics and administration guides, motivates and encourages the staff to actively involve themselves towards realizing the goals and objectives of the College. Principal also coordinates with outside agencies like University, UGC and State's Higher Education Department and other Govt. bodies for compliance with necessary regulations.

The members of the teaching staff along with the Librarian and Sports Officer constitute the Staff Council. The Principal is the Chairman of the Staff Council. The Council Secretary is elected on the basis of seniority and only the senior most faculty member is entitled to become the Council Secretary. Teachers are members and conveners of various committees institutionalised for smooth functioning of the College. Each committee has a convener who convenes the meeting of the committee and record the minutes of meeting. The Staff Council Secretary keeps the records of the proceedings of all the meetings. Department Heads and Principal are accountable for implementation of Academic calendar, completion of syllabus, internal assessments and annual practical and theory examinations.

Decentralization of administration ensures responsible & independent thinking among the faculty members. The faculty members decide among themselves on course distribution, teaching plans, theory & practical classes and syllabus completion. Every department conducts departmental meetings every month for discussions regarding syllabus completion, teaching plans, future plans, faculty needs and other requirements. The Head of Department conducts the departmental meetings. Heads of Departments are endowed with considerable administrative and academic autonomy within the regulatory framework to run their respective disciplines. This facilitates faster growth of academic leadership among the faculty members.

Case Study:

As per the resolution passed during the Staff Council meeting dated 29-06-2015, a scheme named '*Saraswati Sadhna Yojna*' was initiated for financially weak girl students of the College. The scheme was meant to provide educational support by faculty members to financially weak students. The

faculty members donated their personal specimen copies of text books for the girls belonging to low income category. Under this scheme, the text books were issued free of cost for the whole academic session to the beneficiaries so that they too could avail expensive text books for studying and notes preparations. This initiative spread the message in the society that the Professors of the College are caring and supportive towards their students. This initiative exemplified the participatory role of faculty members and staff of the College in academics.

Management roles and responsibilities are communicated to the faculty members through regular staff meetings. Various co-curricular and extra-curricular activities are conducted through student committees led by Professors-in-charge. The Principal holds regular meeting with teaching and non-teaching staff and various issues are taken up for discussion before arriving at a final decision. The participative decision making ensures total participation of all the stakeholders.

6.2 Strategy Development and Deployment

6.2.1 The institutional Strategic / Perspective plan is effectively deployed

Response:

The College under the leadership of the Principal, identified major strategic / perspective plans & imperatives and employed necessary efforts to improve the thrust areas like:

1. Enhanced Teaching and Learning
2. FDP
3. Introduction of New Academic Programmes
4. Improving Infrastructural Facilities
5. Enhancing Research activities
6. Employability of the Students
7. Co-Curricular Activities
8. MoUs
9. Public Relations
10. Extra-Curricular Activities
11. Mobilization of non-Governmental Funds
12. Alumni Association
13. Utilization of Government funds

Utilization of Government and non-Government funds has been one of the most important planks of the Strategic Plan. During 2014-15 to 2018-19, the grants sanctioned by UGC were utilized for organizing National Seminars in various departments. UGC grant was also sanctioned for the development of play field in the College. The grant sanctioned by RUSA was utilized for new constructions, renovation, purchase of lab equipments, ICT equipments, LCD projectors and computers etc.

The College also utilized its non-governmental Janbhagidari funds for smooth functioning and enhancement of its teaching-learning process. Janbhagidari Lecturers were appointed to share excess teaching load for which the sanctioned faculty strength is not adequately sufficient. The salaries of Janbhagidari Lecturers and Janbhagidari workers were drawn from the non-governmental Janbhagidari fund of the College. This is one of the activities successfully implemented based on the strategic plan. Due to the paucity of Government appointments, College decided for the appointments of Janbhagidari Lecturers and workers. The total expenditure on the salaries of Janbhagidari appointments was borne out of the non-governmental College funds and there is no contribution from the Government to this regard. This initiative of the College was beneficial for the students and helped in timely completion of their syllabus. Self-financed programmes like B.Sc. Microbiology and PGDCA are also running successfully since 2006-07 and 2016-17 respectively with the help of Janbhagidari Lecturers. The Guest Lecturers are also appointed in the College according to the norms of Higher Education Department, C.G. Govt. & UGC.

Thus, the College made concerted efforts to explore various sources to mobilize funds as outlined in its Strategic Plans and has been successful in receiving various types of financial assistance from both the government and non-government sectors for its overall development.

these committees vested with serious responsibilities. A staff member is also evaluated on these aspects such as execution of the responsibilities and leadership effectiveness in heading these committees.

- College also provides an opportunity for the faculty member to discuss his/her performance with the Principal. During these interactions, the Staff member becomes aware of the Principal's expectations from him/her.
- The faculty member also gets an opportunity to discuss his/her constraints with the Principal and the necessary support expected from the Principal to overcome these constraints. During the one on one discussions, the work output of the faculty member is also recognized and discussed at length.

The Principal evaluate the self-appraisal forms of the faculty members and then forward them to the higher authorities for final marking.

Appraisal of the Non-Teaching Staff:

The Principal evaluates the performance of a non-teaching staff members and hold discussions with them about their performances based on their work output and quality. Appraisal is absolutely based on the performance and is free of any fear or favor. Appreciation is given to those whose performances have been good and professional counseling is offered to those who lag behind in their work.

IQAC of the College was established on 5th November 2012 and since the very day, IQAC has been contributing towards an improvement in quality quotient of all the College activities. Two practices institutionalized as a result of IQAC initiatives towards improving the institutional quality are provided beneath.

Practice 1: Library Orientation Classes for all freshly admitted first year students of all faculties.

- Biomedical waste management
- E-waste management

Solid waste management: The solid waste is generated during routine activities carried out in the College and includes mainly waste paper, pens, metal pins, threads, torn out files/folders, food waste from Canteen & departments etc. The waste is segregated at every source (department). The administrative head in each department ensures that the waste is collected at designated time intervals. The department's *Safai Workers* collect, segregate and compile the waste in respective dustbins; Green (for biodegradable waste) and Blue (for non-biodegradable waste). These wastes are emptied in the Solid Waste Pit inside the College campus. The College has contacted the authorized agency to collect this waste for disposing at the landfills authorized by the Government. The College has an Agreement with the City Municipal Corporation, Durg for daily pick up of solid waste from the Solid Waste Pit for its proper disposal.

Liquid waste management: Liquid waste generated by the College is of two types: a) Sewage waste; b) Canteen's liquid waste. College has a concealed sewage system comprising of underground septic tanks made of concrete. The sewage effluent water is passed inside the concealed drainage which connects to the main sewage drainage system provided by the Municipal Corporation. Canteen's liquid waste is collected in to the Liquid Waste Pit.

Biomedical waste management: Being a Girls' College, the major biomedical waste generated on daily basis is used sanitary pads. The used sanitary pads are disposed of by using the Incinerator facility available in the College on daily basis.

The e-waste generated from hardware which cannot be reused or recycled is collected at the marked location designated for 'E-waste' inside the Campus. The cartridges of printers are refilled and reused in the campus. UPS Batteries are repaired by the vendor and reused.

Water recycling system: As of now, the College doesn't have any water recycling system however the facility proposal is under consideration and may soon materialize.

7.2 Best Practices

7.2.1 Describe two best practices successfully implemented by the Institution as per NAAC format provided in the Manual.

Response:

Best practice-01

Title of the Practice

Financial support to economically deprived female students under Colleges' fellowship schemes like - Minimata Balika Utthhan Yojna, Maharaja Agrasen Welfare Trust scheme, Mor Noni Yojna, Sitaram Jindal Merit scheme, Chhoti Behen Yojna and Garima Saxena Smriti.

Objectives of the Practice

- To provide equal opportunities to economically impoverished female students of the College in attaining higher education by offering financial support for fees payment.
- To develop confidence among economically deprived female students that they will always get financial support from the College and their Teacher Guardians.
- To collaborate and associate with charitable trusts, philanthropic organizations & individuals to mobilize financial help for female students from economically deprived backgrounds.
- To spread the message in the society that the Teachers of the College deeply care and actively support female students from economically impoverished backgrounds.

The Context

About 2500 girl students who belong to rural milieu with poor financial background are gaining education in the College. Such students need financial support system from the Teachers and the College. The

Teaching Staff of the College came forward to help such students who find it hard to pursue their higher studies due to money constraints. Under Minimata Balika Utthhan Yojna and Mor Noni Yojna, College and every Teaching Staff has adopted girl students from economically impoverished background and taken responsibility for their admission fees, examination fees and relevant financial need. Maharaja Agrasen Welfare Trust is a charitable organization working in tandem with the College and provides Maharaja Agrasen fellowship to needy students. Sitaram Jindal Trust in collaboration with the College disburses Sitaram Jindal fellowships to needy students. Chhoti Behen fellowship scheme is an initiative of the Alumni Association of the College to provide financial support to economically impoverished girl students. Late Garima Saxena was a student of the College who passed away untimely due to mental illness while studying in BA Part II. Her Parents in remembrance of Garima Saxena have decided to provide Garima Saxena Smriti fellowship to the needy students.

The Practice

Chhattisgarh was carved out of erstwhile Madhya Pradesh nineteen years ago and so far desired results have not been achieved in higher education percentage which is lower than the national average, especially among native girls. Financial constraint is a major reason behind this. The flagship schemes of financial aids have been launched by the College with the objective to give opportunity to every deserving girl student a shot at higher education regardless of her economic condition. The Professors of the College voluntarily came forward to become Teacher Guardian to financially adopt girl students and also mentor them regularly to resolve their relevant issues. The College considers this as a best practice where adopted students are protected from financial constraints and the Teacher Guardian could offer more than usual to adopted students.

Limitations: Some girl students belonging to poor financial background shy away in coming to fore and seek help probably due to their socio-psychological conditioning.

Evidence of success

During the last five years i.e. 2014-19, 489 female students have been provided fellowships / freeships by the College. The year wise break-up of number of students benefited under various fellowship schemes of the College is 55 in 2014-15, 54 in 2015-16, 88 in 2016-17, 133 in 2017-18 and 159 in 2018-19. A total sum of Rs. 4,93,500/- was disbursed as fellowships under various flagship schemes of College namely, Minimata Balika Utthhan Yojna (MBUY), Maharaja Agrasen Welfare Trust (MAWT), Mor Noni Yojna (MNY), Sitaram Jindal Merit (SJM), Chhoti Behen Yojna (CBY) and Garima Saxena Smriti (GSS) fellowships. The break-up of the total disbursed amount is: MBUY – Rs.33,000/-, total beneficiaries – 55; MAWT –Rs.3,50,000/-, total beneficiaries – 316; MNY – Rs.47,300/-, total beneficiaries – 43; SJM – Rs.19,200/-, total beneficiaries – 32; GSS – Rs.35,000/-, total beneficiaries - 28; CBY – Rs.9000/-, total beneficiaries - 15. This initiative of the College has created an environment of trust and belief among the economically deprived students that they can always bank on the College and Teachers for financial requirements of their higher education. In the upcoming academic sessions, the number of such fellowships / freeships will be increased so that more number of needy students receive tuition fees and exam fees from the College, Teacher guardians and other philanthropic organizations.

Problems Encountered & Resources Required

The core objectives of these fellowship schemes would be fully achieved only when more charitable trusts, philanthropic organizations & individuals and College Professors come forward and extend help from the

core of their hearts without any reluctance. Actual purpose will not be fulfilled just by providing fees amount but also motivational counseling and other resources such as text books, reference books, notes, other study materials etc to needy students.

Best Practice- 02

Title of the Practice

Entrepreneurial skills training workshops for female students under Women Entrepreneurial Training Programs (WETPs)

Objectives of the Practice

- Promotion of start-up culture and development of entrepreneurial skills in female students to enhance their socio-economic status.
- To spread awareness among female students regarding government schemes and opportunities available in the local market to establish independent enterprise.
- To sensitize female students regarding complexities of business system & exposure to the man-machine system.
- To improve the personality traits of female students by providing psychological counseling towards entrepreneurship.
- To facilitate the trained entrepreneurs by liaising with government and non- government institutions for financial provisions to establish micro scale industries.

The Context

Women entrepreneurial training program (WETP) is a program which helps in developing the entrepreneurial abilities of women. An entrepreneur has to possess creativity & experience to compete not only with others but also with the self standards of excellence. An entrepreneur may face several problems while managing small & micro scale enterprises. WETP acquaints them with several qualitative and quantitative approaches evolved in management science to help solve their problems. Entrepreneur trainees are trained to understand the environment, resources, capacities, limitations, strengths, weaknesses, opportunities & challenges to design the right approach. To fulfill the above mentioned objectives, WETPs are scheduled in the College for 3-30 days free of cost. The program consists of structured training process to develop an individual into an entrepreneur. The College has collaborations with several Govt. Agencies, NGOs, Private Enterprises and others with MoUs duly signed for imparting entrepreneurship / skill training to the girl students of the College. Agencies like Chhattisgarh Industrial and Technical Consultancy Center - National Science & Technology Entrepreneurship Development Board [CITCON-NSTEDB] Raipur CG, Costume & Dress Designing Dept., Minimata Govt. Girls Polytechnic (CDDM) Rajnandgaon CG, Motivational Institute for Training & Reinforcement (MITR), Bhilai CG, National Nutrition Board - Women & Child Welfare Dept. Raipur CG, etc are providing entrepreneurship / skill training programmes regularly in every academic session to the girl students of the College. The girl students of the College are provided training on Food Preservation & Processing Practices, Entrepreneurship Awareness, Textile Ornamentation & Garment Making, Jewellery Designing, Tie & Dye etc. These training workshops encourage and enable the girl students of our College to aspire, envisage, plan and start micro scale enterprises to become financially independent and improve their socio-economic status.

The Practice

Entrepreneurship training under WETPs are organized by the College, convened by the staff member Dr. Babita Dubey, Asst. Professor, Dept. of Home Science and conducted by Chhattisgarh Industrial and Technical Consultancy Center (CITCON) under the sponsorship of Entrepreneurship Development Institution, Ahmedabad (Gujarat) for National Science and Technology Entrepreneurship Development Board (NSTEDB), Department of Science and Technology (DST) Government of India, New Delhi. WETPs start with soft skill classes for entrepreneurs and later they are taught commercial techniques for initiating a micro scale unit. Trainees are also informed of the sources to be approached for various amenities required. The entrepreneurship trainees are also taught cost estimates, product pricing and marketing skills.

Limitations: Less number of candidates are available because only Science stream girl students in the age group of 18-35 years (for SC/ST category, 45 years) are eligible as per CITCON- NSTEDB.

Evidence of success

During the last five years i.e. 2014-19, a total of 22 women entrepreneurship training workshops were organized in the College in which a total of 566 female students were imparted training on entrepreneurial skills related to Food preservation, Home products preparations, textile ornamentation, costume designing, Jewellery designing, beauty salon, hair & nail art. So far among the entrepreneurship trainees of the College, 8 young entrepreneurs have individual operational set-ups as micro scale enterprises. These 8 young entrepreneurs have also generated employment for 10 other persons in their respective enterprises.

Problems Encountered and Resources Required

Sponsorship programs are limited and for specific students only. Women entrepreneurship is not possible without family support. Local women still have hesitations in taking bold decisions for start-up ventures. A regular follow-up is must because the dedication levels of women entrepreneurs go down owing to the practical challenges and lack of support from family, society and business fraternity.
